Activity * – Labour Day Celebration

***Class *– Nursery**

***Date* – 30-04-2026**

***Day *– Thursday**

Learning Objectives

1. Students will understand the importance of helpers and workers in our daily life.

2. Students will develop a sense of respect and gratitude towards helping staff.

***Learning Outcomes ***

1. Students will be able to recognize and appreciate the role of helpers around them.

2. Students will participate in the activity by giving cards/flowers/chocolates and express kindness.

Activity-Outdoor Fun – Balancing with Balls

Class: Nursery

Date: 21-04-2026

Day: Tuesday

Learning Objectives

1. **To develop balance and body coordination.**
2. **To enhance concentration and control while walking and balancing the ball.**

Learning Outcomes

1. **Students were able to balance the balls while walking.**

2. Students showed improved coordination, focus, and confidence during the activity.

Class— Nursery

Date— 15-04-26

Day— Wednesday

Active— Recognition of circle

Learning Objectives

- Recognize and identify the shape of a circle among other shapes

- Identify the color green and connect it to objects like a green circle

Learning Outcomes

- Child can point to and name a circle when shown different shapes

- Child can pick out green colored objects, including a green circle, from a group

Class: Nursery

Date: 18.05.2026

Day: Monday

Activity: Wet and Dry

Learning Objectives

1. **Students will understand the difference between dry and wet through a hands-on activity.**
2. **Students will develop sensory awareness by experiencing dry and wet concept.**

Learning Outcomes

1. **Students were able to identify the dry and wet concepts correctly.**
2. **Students were able to participate actively in the hand dipping and towel wiping activity independently.**

Activity Report-Nature Walk

Class- Nursery

Date - 05-05-2026

Day- Tuesday

Learning Objectives

1. To help children observe and explore the natural environment.

2. To introduce children to basic nature vocabulary.

Learning Outcomes

1. Learners can identify and name simple natural objects.

2. Learners have improved their motor skills through walking and picking objects.

Report: Facial Expressions Activity

Date: 25-08-2026

Class: NURSERY

Activity: Facial Expressions – Match the Emotions

Activity Description:

Learners participated in an engaging activity on facial expressions and emotions. They observed different facial expressions representing emotions such as happy, sad, angry, surprised, and crying. Learners matched the expressions with the corresponding emotions and also tried to imitate the expressions themselves. The activity was conducted in a fun and interactive manner, helping children understand and express their feelings.

Learning Objectives:

1. To help learners identify and understand different emotions through facial expressions.

2. To develop emotional awareness and communication skills.

3. To encourage learners to express their feelings confidently.

Learning Outcomes:

1. Learners were able to identify and match different facial expressions with the appropriate emotions.

2. Learners confidently imitated and expressed various emotions through their facial expressions.

3. Learners enhanced their vocabulary with words such as happy, sad, angry, surprised, and crying.

My Safe Circle Activity Report

Date: 7th August 2026

Day:Friday

Class: Nursery

Learners were introduced to the concept of *"My Safe Circle."* They identified the photographs of their parents and close family members, helping them understand that these are the trusted people who love, care for, and keep them safe.

This activity encouraged the children to recognize their safe circle while fostering a sense of security, belonging, and emotional well-being.

Learning Objectives

1. To enable learners to recognize their parents and close family members through photographs.

2. To develop a sense of safety, security, and belonging.

3. To encourage learners to communicate about the trusted adults in their lives.

4. To promote social and emotional awareness by understanding whom they can approach for care and support.

Learning Outcomes

1. Identify their parents and close family members from photographs.

2. Recognize that their family members are part of their safe circle.

3. Demonstrate a sense of comfort and confidence while talking about their family.

4. Develop an understanding that trusted adults provide love, care, and protection.

Date- 24-09-26

Day -Thursday

Class -Nursery

Topic: (Animals)Match Me Up

Learning Objectives

1. To enable children to identify different animals and their characteristics.

2. To help children match animals with their correct picture, shadow, food, baby, or home.

3. To develop observation and visual discrimination skills.

4. To enhance vocabulary related to animals.

5. To develop logical thinking and concentration through matching activities.

Learning Outcomes

1. Children will be able to correctly match animals with their related pictures / food / homes.

2. Children will be able to name at least 5-6 domestic and wild animals.

3. Children will show improved eye-hand coordination and focus.

4. Children will be able to speak in small sentences, e.g., "This is a cow" or "Lion lives in a den."

5. Children will develop confidence in completing the task independently.

***Class* Nursery**

***Date* 21-09-2026**

***Day* Monday**

***Topic* Logo Recognition**

Brief Description of Activity

The learners were introduced to different logos using flashcards and PPT. They were shown and taught to name some common logos like -

***Johnson & Johnson, Oreo, School Logo, Save Planet, Save Water, McDonald's, Save Girl Child, Cocomelon, YouTube, Google* etc. Children actively participated in identifying the logos they see in daily life.**

Learning Objectives

1. To enable children to recognize and identify common logos and symbols seen in their surroundings.

2. To develop visual association and brand/symbol awareness through flashcards and PPT.

Learning Outcomes

1. Children were able to recognize and name 4-5 familiar logos correctly.

2. Children showed improved visual memory, observation skills and vocabulary related to logos.

CLASS-LKG

Class LKG

Date: 22-04-2026

Activity – Celebration of Earth Day Week

Topic – Our Earth, Our Home

The little ones of LKG celebrated Earth Day with great excitement through a week full of simple and meaningful activities.

On the first day, children were introduced to the Earth planet and understood that it is the place where we all live.

The second day was a fun nature walk where they enjoyed observing trees, plants, and their surroundings.

On the third day, the children happily watered plants and learned how to take care of them. The fourth day was full of colours as they coloured pictures related to saving trees, saving water, and protecting our Earth.

The celebration became even more special when the children came dressed in blue and green to represent our beautiful planet. On the last day, they enjoyed bottle cap printing to create the Earth and also made a lovely wall hanging together.

Learning Objectives

1. To help children understand that Earth is our home.

2. To develop a sense of love and care for nature.

3. To encourage small good habits like saving water and keeping surroundings clean.

Learning Outcomes

1. Children understood the importance of taking care of the Earth.

2. Children participated happily in all activities.

3. Children showed positive habits like caring for plants and keeping their surroundings clean.

***Activity* Mother's Day Celebration**

***Class* LKG**

***Date* :08-05-2026**

***Activity* Celebration of Mother's Day**

***Topic*Expressing love for Mothers**

The children of the LKG class celebrated Mother's Day with immense love and joy. The children did hand-printing in their scrap files to depict that a mother is a heart that plays an important role in our lives. To make the day even more memorable, the children also created and gave their mothers a beautiful craft takeaway that showed deep love and appreciation towards them.

Learning Objectives

1. To develop fine motor skills and creativity through hand printing and craftwork.

2. To encourage expression, love, and affection towards mothers.

Learning Outcomes

1. Children enhanced sensory and motor skills through the hand printing activity.

2. Children learned to express their love towards mothers.

***Activity* -Hindi Rhyme Recitation**

***Class* LKG**

***Date* 14-08-2026**

***Topic* Patriotic Theme**

The LKG children had a great time reciting Hindi poems for Independence Day. Teachers explained why being independent is important and why we love our country. The children came up on stage very confidently and used colourful props to recite patriotic rhymes with full energy. In the end, teachers told them to always respect our national flag.

Learning Objectives

1. To teach children about loving and respecting our country.

2. To build stage confidence and speaking skills using props.

Learning Outcomes

1. Children confidently recited patriotic poems with expressions.

2. Children enjoyed performing on stage with different props.

CLASS -UKG

***Activity* Finger puppets**

***Date* 6-5- 26**

The finger puppet activity for UKG classes was a successful initiative aimed at enhancing creativity, language skills, and motor coordination. Learning 5 vowels through this activity was an enriching experience for learners.

Learning objectives

****Identify the 5 vowels*: Name A, E, I, O, U in both uppercase and lowercase**

****Distinguish vowels from consonants***

***Understand that vowels are there in every word.**

Learning outcomes

****Letter recognition*: Identify A, E, I, O, U in upper + lowercase**

****Sound awareness*: Say the 5 short vowel sounds /a/, /e/, /i/, /o/, /u/**

****Early reading and writing*: Blend simple CVC words like _cat, bed, pig, dog, sun_**

Class : *UKG*

Activity: *Backward Counting*

Date: *1.7.2026*

A Backward Counting Activity was conducted for UKG students to strengthen their number sense in a fun and engaging way. The Children counted backwards from 10 to 1 using number cards and interactive games. They also participated in countdown activities, helping them understand the sequence of numbers in reverse order.

Learning Objectives

1. To develop the concept of backward counting.

2. To strengthen number recognition and sequencing skills.

3. To enhance listening and speaking skills.

4. To build confidence in counting independently.

Expected Outcomes

1. Students will be able to count backwards accurately from 10 to 1.

2. Students will recognize numbers in reverse order.

3. Students will demonstrate increased confidence while counting.

4. Students will actively participate in mathematical activities.

Vocabulary Growth

Children learned and used words such as:

Backward, Count,Before

, After, Reverse, Number

, Sequence.

Activity* *Showcase and Share

Class* *UKG

Date* *25.08.2026

Topic* *What I Want to Be, My Favourite Food & National Pride

The UKG students participated enthusiastically in the Showcase and Share activity. Children confidently shared their aspirations, spoke about their favourite food, and expressed their thoughts on national pride. They

showcased their creativity and communicated their ideas with confidence.

Learning Objectives

1. To develop communication and speaking skills.

2. To encourage children to express their thoughts and preferences.

3. To build confidence and overcome hesitation while speaking.

4. To nurture feelings of patriotism and national pride.

Expected Outcomes

1. Children expressed themselves confidently in front of others.

2. They improved their vocabulary and sentence formation.

3. They developed listening and presentation skills.

4. They demonstrated love and respect for their country.

Vocabulary Growth

Dream, profession, teacher, judge, favourite, healthy, nation, patriotism, freedom, flag, pride.

Subjects Interlinked

English, EVS, Value Education, General Awareness.

Poshan Maah*– Healthy Tiffin Activity

***Class*UKG**

***Date* 30.09.2026**

As a part of Poshan Maah, a Healthy Tiffin Activity was conducted for the UKG students to create awareness about the importance of nutritious and balanced food. The students were encouraged to bring healthy food items in their tiffins and were sensitised about making wise food choices.

The children enthusiastically displayed and shared their healthy tiffin items with their classmates. Through an interactive discussion, they learnt to differentiate between healthy and unhealthy foods and understood the importance of healthy food.

Learning Objectives

1. To develop awareness about healthy and nutritious eating habits.

2. To encourage children to make healthy food choices.

3. To understand the importance of a balanced diet.

4. To promote good eating habits and hygiene.

5. To develop sharing, communication and social skills.

Vocabulary Growth

Children were introduced to words such as nutrition, healthy, unhealthy, balanced diet, nutritious, fruits, vegetables, protein, vitamins, hygiene, and energy.

Thinking Skills

Children were encouraged to think and answer questions such as:

●Which foods help us to stay healthy?

●Why should we eat fruits and vegetables?

●Which food should we eat less of?

●What makes your tiffin healthy?

Learning Outcomes

The activity helped students understand the importance of healthy food choices and balanced nutrition. They developed greater awareness about nutritious foods and were motivated to adopt healthy eating habits in their daily lives.

Activity-Storytelling Competition

Date: 18-07-2026

A Storytelling Competition was organized for the students of Class 1 on 18th July 2026. The young learners participated with great enthusiasm, confidence, and joy. Dressed beautifully and using simple expressions, voice modulation, and actions, the children narrated their stories with confidence. Their creativity, imagination, and presentation skills made the event enjoyable and meaningful.

Learning Objectives:

- To develop speaking and communication skills.

- To build confidence while speaking before an audience.

- To improve listening skills and concentration.

- To encourage creativity, imagination, and self-expression.

- To enhance vocabulary and correct pronunciation.

- To develop sequencing and comprehension skills.

- To foster moral values through meaningful stories.

Learning Outcomes:

- Students narrated stories confidently and clearly.

- They used appropriate voice modulation, facial expressions, and gestures.

- They improved their vocabulary and pronunciation.

- They listened attentively and appreciated their classmates' performances.

- They developed better communication and presentation skills.

- They understood the moral message of the stories and related it to daily life.

The competition was a wonderful learning experience that nurtured confidence, creativity, language development, and a love for storytelling among the students.

STORY
BATH & BODY WORKS

CLASS-2

*** Activity* Collage Making based on Cleanliness is next to Godliness.**

Class 2

***Dated* 25-4-2026**

Learning Objectives

- **Environmental Awareness: Teach students about recycling and reusing waste materials by turning everyday wrappers into art.**
- **Creativity & Imagination: Encourage creative expression and design thinking using unconventional art materials.**
- **Fine Motor Skills: Develop cutting, pasting, and arranging skills to improve hand-eye coordination.**
- **Teamwork: Promote collaboration if done as a group activity, building communication and sharing habits.**

Learning Outcomes

After completing the activity, students will be able to:

- **Understand 3R Concept: Explain how Reduce, Reuse, Recycle applies to daily waste like wrappers.**
- **Identify Product Details: Recognize logos, brand names, ingredients, and MRP mentioned on packaging.**

t

***Activity*- Earth Day Bookmark, Date* 11-04-2026**

Learning Objectives

1. To create awareness about protecting Earth and saving trees.

2. To develop creativity and fine motor skills through art.

3. To encourage expression of environmental ideas.

4. To build a sense of responsibility towards nature.

*** Learning Outcomes***

1. Children design and create meaningful Earth Day bookmarks.

2. They express simple ideas about saving Earth and trees.

3. They show improved cutting, coloring, and crafting skills.

4. They demonstrate awareness and positive attitude towards the environment.

***Activity*Abacus for Class 2**

***Date*16.05.2026**

Learning Objectives

Number Sense: Help students visualize place value of 2-digit and 3-digit numbers using beads on rods.

Basic Operations: Introduce addition and subtraction in a concrete, hands-on way before moving to abstract sums.

Concentration & Focus: Improve attention span and listening skills as students follow bead movements.

Fine Motor Development: Strengthen finger dexterity and hand-eye coordination through bead manipulation.

Mental Math Foundation: Build the base for mental arithmetic and faster calculation skills.

Confidence Building: Make math fun and less intimidating through play-based learning.

Learning Outcomes

After the abacus activity, Class 2 students will be able to:

Show place value of ones, tens, and hundreds on the abacus correctly.

Read and represent numbers up to 999 using the abacus.

Perform simple addition and subtraction of 2-digit numbers without regrouping on the abacus.

Count beads faster and develop better speed and accuracy in calculations.

Demonstrate improved concentration and interest in solving math problems.

Explain their working while moving beads, building math vocabulary and confidence.
